2. The discussion on requirements also resulted in considerable debate as to whether the requirements should be based on strict intelligence needs, the threat, military forces available to respond to the threat, or fiscal constraints. There appeared to be a consensus that intelligence requirements should be developed solely in the basis of information needs and not influenced by other factors.

3. The Chairman, Ms. Vajta, noted that the cost estimates for certain aspects (undefined) of Alternative II of the Reconnaissance Systems Review (RSR) "have gone down drastically", and asked the chairman of the Task 9 sub-panel to develop revised cost estimates.

4. The Chairman also informed the Working Group members that the Task statements would be frozen as of 8 February. Task statements from the RSR would be incorporated into the appropriate NWMP-II task statement, and two of the RSR recommended studies, Information Needs to Satisfy NCA and Other National Requirements During Theater War and Post-SIOP Military Operations Concept, would be incorporated into the effort.
